A A A A A A A A A A A A A A A A A A A	You are competing in a basketball contest. In this contest the score for each successful shot depends on both the distance from the basket and the player's position. The ball is shot N times, successfully. You are given an array A containing the	y scsol
	contiguous subarray of size K from the given array.	,2438R)
3C502435	Note: * A subarray is a contiguous part of array.	ج ج
30	* Assume 1 based indexing.	,8R23C5
A BRU		
32 36.	* Assume the player is standing on a cartesian plane.	305024
	Input Format	3050
	input i offilat	
3650	- input1:An integer value N representing the number of shots made by the player	
BR13C50	- input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray	L3BR)
	 - input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray 	,2 A 38 R.
	 - input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray 	JA 3BRI
	 - input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray - input3: An array of integers Sample Input 	, 1 th 31 th 3
3C507A35	 - input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray - input3: An array of integers Sample Input 5 2 	N. Start
	 - input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray - input3: An array of integers Sample Input 5 2 1 2 3 4 5 	S. A.
BRITACEO	 - input1:An integer value N representing the number of shots made by the player - input2: An integer K representing the size of subarray - input3: An array of integers Sample Input 5 2 	A STATE OF THE STA
